**canopy is the minimum requirement
for a healthy resilient neighbourhood**

of humans will live in urban areas

of tree canopy in Western Australia

**“The wellbeing of our urban communities depends on the wellbeing
of our trees and natural environment. Trees provide many benefits”**

Routledge Handbook of Urban Forestry, edited by Francesco Ferrini, et al., Taylor & Francis Group, 2017. ProQuest Ebook Central,
<http://ebookcentral.proquest.com/lib/ubc/detail.action?docID=4834184>.

**Kids want cool cities with tree-lined streets. They want to know wildlife has a place, and that the bushland is
truly protected for future generations. They want to experience all the benefits of trees**
